

Building relationships. Designing solutions.

Web Design and Hosting

Website Creation: \$350.00

First, we'll assist you in selecting a unique domain name as a .com, .net, .org, or .biz. Then we'll create your home page and up to 5 sub-pages (additional pages extra), prepare your existing logo/banner for use at the top of each page, and create internal and external navigational hyperlinks. Don't have a logo? Ask about our logo design services. (Additional fees may be required to design your logo). We'll then set up your new email accounts under your new domain; up to 500 of them depending on your plan. When the new website has met your approval, we'll publish it to the World Wide Web. In accordance with the maintenance plan you select below we'll do routine maintenance and updates, including running code validation and link validation monthly to ensure that your customers always enjoy a pleasant experience on your website.

Website Monthly Maintenance:

Basic Website

\$69.00/mo.
(6 months minimum)

or

\$759.00/yr.
