

Pick a point on your Business card and be sure that it is 3.5 inches from the same point on the card above or below it, and 2 inches from the same point on the card to either side of it. If all the cards pass this test, then the artwork will appear in the same place on all 12 cards on the sheet.

3.5"

This gray (0.25" margin) area is the NON-PRINTABLE AREA. No text or graphics in this space will show up on output. Also, when the cards are cut, it will be discarded.

**1.5 inches
X
3.0 inches**

**(useable area for
text & graphics
on each card, see
below for details)**

These lines indicate where we will cut the sheets we print for your business cards. Due to limitations in cutting accuracy, there should be no text or graphics within a quarter of an inch (0.25) of any of the 4 edges of your card. See the card immediately above this box for a demonstration of the useable area (displayed in Red) on each card.
